

## - IV - AMENDED DRAWINGS

Under 37 CFR 1.121 (d)

**NEW SHEET 1/2**

On immediate anterior figure 1

- a) cancelation of the flanges
- b) cancelation of back to back membranes
- c) correction of the indices mistakes

Cancelation of the figures 2, 3, 4, 5, 6, 7

Change of indices

**Addition in figure 1 of the former coils 72 (see former figure 1) and former dipole 142 (see former figure 43), generating magnetic field**

**Insertion of the former figure 35 showing the actuating membrane, with active indices.**

**NEW SHEET 2/2**

**Asotion of a figure 6 showing a very thin flat folding in the form of a narrow cane.**

**This very thin folding is the limit of the alternately concave-convex distortions of a concave membrane.**
